# Leasing

At "Aloqabank" offers its customers a type of loan - Financial Leasing - to pay back the amount of the purchase property after the third party (seller). **Leasing** is a convenient form of investing in a business. Using a path from the object purchased to the leasing evasion, it is possible to purchase the equipment, equipment or auto-financing necessary to expand, modernize the existing business or open a new direction of activity, provided that the object is returned within a certain period of time.

## Leasing operations

### For manufacturing and service companies:

**the amount of leasing** - up to 70% of the cost of the leased object

**The leasing maturity** - up to 3 years (the grace period for the main debt is 6 months)

**Interest rate** - base rate + 4%
